Token Transfer System on FLO Blockchain

The Frogwarts

Andy has a band called The Frogwarts.
His band wants to go on a tour.
They decide to call the tour
Revenge of The Frogwarts 2020.

Token Transfer System on FLO Blockchain

The Problem

Andy's band is broke.
Andy decides to create a token
to fund the tour.

Investors buy the tokens.

RanchiMall

Token Transfer System on FLO Blockchain

The Solution

If the Revenge of The Frogwarts 2020 tour is successful, the token holders get rewards!

Token Transfer System on FLO Blockchain

Let's Get a FLO ID

First of all, Andy needs a FLO Address.
It's easy.

Go to FLO Wallet -> 'Generate'
His FLO ID is created in one step.

RanchiMall

SCREENGRAB FROM FLO WEB WALLET 'GENERATE' SECTION

Token Transfer System on FLO Blockchain

CREATE TOKENS

Andy wants to create
10 million tokens.

Write a statement on your
FLO wallet:
"Create 10 million FROGWART#"

Send

Andy's tokens are created!

FLO Scout

Andy's FLO ID is
F95RUd2zstrFeiC7ZVLkLhjXbrZxMA2vJr.

Let's verify that Andy's 10 million FROGWART tokens were created.

Go to FLO Scout and search for FROGWART.

FLO Scout

Now he needs to sell the tokens to Investors.

He promises his investors that all gains from the Revenge of The Frogwarts Tour 2020 will go to the token holders.

Token Transfer System on FLO Blockchain

Investor Kate

Kate, an investor and wants to buy 500 tokens.

Andy instructs Kate to generate a FLO ID from her Web Wallet -> Generate

Kate's FLO Blockchain Based ID is FM1KFPiG7CD7vWmEpC6nEjXKig3bLxZfh8

RanchiMall

Token Transfer System on FLO Blockchain

Token Transfer

Andy takes cash from Kate, and
TRANSFER 500 FROGWART# to Kate FLO ID.

The command is
TRANSFER 500 FROGWART#
and Andy enters the commant into the
FLO web wallet -> Send FLO Data
